Dear Ian,

I'm OK, I work like fury at Kulaluk on the garden, its that big now that I'd be forever watering it from the wells, the last two weeks I've been annoying hell out of the DAA to lay a water pipe - line to Fish Camp. (If the ~~stupid~~ bastards can root up all the jungle with their shit - line sewerage line, surely they can lay a water line to camp, the DAA has \$200,000 of our cash in reserve. I price our pipe - line at \$330 dollars.

I'll give the DAA two more weeks to spend some of that \$200,000 of ours on us,

The next time the cops try a "frame" it just might be right. "Man charged
