The "permanent ... confident" place to stay promised by the NT Government to Aboriginal people at Railway Dam is now looking decidedly impermanent.

Back on 26 March 1979 a special purpose lease to the 3.12 hectare block was granted to the Aboriginal Development Foundation by then NT Lands and Housing Minister Marshall Perron.

Mr Perron said to the NT News at the time he was very pleased the lease had now been prepared.

"There is a lot of work to be done but it is a great step forward," he said.

"It will provide a permanent place for Aboriginal people to stay when they come to Darwin."

"It is best for all concerned if land is allocated and used to meet the needs of Aborigines who wish to live as a community in the urban environs."

"The people can now move to make improvements to their surroundings confident they have secure title to the area."

On 26<sup>th</sup> March 1979 after a long struggle Aboriginal campers at One Mile Dam won land rights to 3.12 hectares of inner-city land in Darwin. At the hand-over ceremony the NT Minister for Lands and Housing, Marshall Perron, stated: 'The people can now move to make improvements to their surroundings confident they have secure title to the area.' However, since 1996 the community has lived under threat of eviction by successive CLP and Labor NT Governments. In addition, One Mile Dam (OMD) is now subject to discriminatory federal government powers under the *Northern Territory National Emergency Response Act 2007* (the 'NT Intervention'). In January 2009 2 representatives of Darwin town camps, with 18 other NT Aboriginal People affected by the NT Intervention, presented the United Nations with a 'Request for Urgent Action under the International Convention on the Elimination of All Forms of Racial Discrimination'.
